

# IPA Educational Supply

## 2016 Summer Workshop Schedule

As of May 16, 2016

### **Wonderful One-Hit Wonders!**

June 10 10:00 - 12:00 \$10.00

Capture your students' attention with dynamic lesson hooks for introducing social studies and science concepts. Get learners pumped about geography, history, government, weather, earth science, and ecosystem units and more! You will discover ideas and hands on activities to ignite the love for social studies and science in your students.

*Presented by Lori Elliott*

### **Learning Through Play and Movement in the Elementary Grades**

June 13 10:00 - 12:00 \$10.00

This workshop will invite you to explore the ways that you can incorporate more play and movement in your day to get your students actively engaged and learning. I will share some of my favorite songs from CD's and DVD's that provide great transitions during the day while also providing the children much needed brain breaks and physical activity. We will look at several games that can be used in the classroom as whole group activities, small group activities, partner activities, in a center, or as a "what can I do when I am finished" activity. Many of the games can be easily adapted to cover a wide range of skills and can be used across grade levels PreK-3rd grade. The games and activities are easy to make and relatively inexpensive. Come on in and have some fun with learning!

*Presented by Vickie Spencer*

### **Math Solutions = Math Games for ALL**

June 20 10:00 - 12:00 \$10.00

Looking for a way to engage your students in math? Try playing games. Math games can improve student engagement and achievement. Bring some fun to your math class!

*Presented by Calee McElwain*

### **Do you want a Number or Do you want a Fraction?**

June 20 2:00 - 4:00 \$10.00

Our new curriculum is packed full of Fractions! Please come and learn more about standards, misconceptions, lessons, games and a whole lot more. Students will learn new innovative methods to comprehending fractions...this will take the "scary" out of teaching as well. Every math teacher will leave with their fraction standards, a game and a lesson that is classroom ready, and a new revitalization for teaching fractions.

*Presented by Stephanie Nelson*

### **Move It! Active Learning Strategies for Your Classroom**

June 21      10:00 - 12:00      \$10.00

Increase student engagement by using active learning strategies. Activities can be applied to a variety of content concepts. Reach your kinesthetic learners by getting them up and moving while introducing new content, processing content, reviewing content, or assessing content. Come move with us! "I like to move it, move it."

*Presented by Calee McElwain*

### **Content Reading Literacy Activities**

June 21      2:00 - 4:00      \$10.00

Why teach reading in all subject areas? We are all reading teachers, and are charged with giving our students tools to be able to work with content text. Come get some ideas to activate prior knowledge, encourage interaction with text, and support understanding of the content.

*Presented by Calee McElwain*

### **Increase Engagement With Google Apps and Google Docs**

June 25      10:00 - 12:00      \$10.00

Google Apps and Google Docs can be excellent tools to increase student engagement! This workshop will help teachers create interactive activities, called HyperDocs to use with students. We will also cover the basics of Google Sheets, Docs, Slides, and Drawing and how these can increase engagement in the classroom. Laptops or tablets welcome. Grades K-5, Special Ed and specials.

*Presented by Allie Rodgers*

### **S.T.E.M.**

June 27      10:00 - 12:00      \$10.00

S.T.E.M. (Science, technology, engineering and math) is all the rage in today's classroom. We have scoured our resources and the internet to compile classroom friendly activities from challenges, teacher directed and student centered lessons to engage students in science and mathematics hands-on activities

*Presented by Melissa Agnew and Stefanie McKoy*

### **Ignite a Passion for Learning by Tinkering!**

June 30      10:00 - 12:00      \$10.00

Get your students excited about learning by discovering their own passions. Learn how to provide opportunities for them to tinker with materials and concepts through the structure of a Maker Space or Genius Hour. Explore ways to personalize learning and prepare your class for the real world through hands-on, STEM/STEAM experiences.

*Presented by Lori Elliott*

### **Kagan Cooperative Learning in Social Studies**

July 9      10:00 - 12:00      \$10.00

Stefanie McKoy, author for Kagan Publishing, will share activities from her Social Studies book (available now) and her soon to be published Geography book. Learn different cooperative structures from the books that can be used in any content area!

Ideal for grades 3-5.

*Presented by Stefanie McKoy*

### **Organizing the Literacy Model and More!**

July 11      10:00 - 12:00      \$10.00

Drowning in paperwork? Can't find anything? Being organized can help you be a more efficient, less stressed, happier teacher! Come learn how to simplify and organize your classroom with easy to implement ideas to get your next school year started off on the right foot!

Applies to grades K-4

*Presented by Melissa Agnew*

### **Project Based Learning for Real Kids and Real Teachers**

July 15      10:00 - 12:00      \$10.00

Make learning real and meaningful in your classroom through project-based learning! Discover the essentials of true project-based learning and learn how to plan for authentic instruction. Lori will share some of her favorite project-based units and tips for managing a project-based classroom.

*Presented by Lori Elliott*

Workshops will be held at IPA. You must be reregistered and prepaid to reserve your spot. Workshop participation is limited. IPA will call and confirm your registration the week of your workshop. If you are not contacted up to 3 days prior to your workshop, please call to confirm your spot. Cancellations must be made 48 hours in advance or you will be charged.

Thank you.
